**Lynn Wolff** has over 20 years experience in planning and design projects for public and private clients and is a registered landscape architect in Massachusetts and New York. She specializes in complex urban projects requiring expertise in project management for multi-disciplinary teams, multiple clients, and extensive cultural, historical, public art, and public participation components. Lynn Wolff collaborates with design professionals, artists, government agencies, and non-profit neighborhood groups to design successful public spaces that reflect the diversity and cultural richness of their surroundings. Her practice has encompassed a broad scope of urban park, streetscape, and community design projects in numerous Boston neighborhoods and throughout New England. Her design approach emphasizes creative solutions through multi-disciplinary design teams, a process of client and community consensus, and products unique to each project and responsive to the project's requirements and participants. Some of Lynn's most recent projects include the **Central Artery/Tunnel Surface Restoration** in Boston, MA, **Commonwealth Avenue** in Boston, MA, **Massachusetts College of Liberal Arts** in North Adams, MA, the **Montshire Museum of Science's Science Park** in Norwich, VT, and **Rosie's Place** in Roxbury, MA. Lynn is currently serving as the co-Principal in Charge on the **World Learning Center Master Plan** in Brattleboro, VT, and Principal in Charge on the **Boston Common Playground** in Boston, MA.
